BRIDGING THE CONNECTICUT. The need of a bridge across the Connecticut river between Old Saybrook and Old Lyme is so apparent that no argument is necessary to make the claim clear or the movement for

such a public convenience tenable. The old ferry there is wholly inadequate for the business and is as obsolete as the one-hose shay" and it does not speak well for the enterprise and progress of the state.

While the pressure being brought to bear for this bridge is mostly from residents east of the river, this is far from being a sectional question, for it is something which concerns all the people of the state, and there is enterprise in it.

The fact that the regular travel is small there, and that the inadequacy of the present ferry is shown only on special occasions should not be wrongly interpreted for that along-shore route is one of the most attractive and pleasant lines of traffic eight months in the year that there is in New England, and with the facilities for making good time assured the travel would be increased immediately without doubt tenfold.

The commission appointed by Governor Woodruff has reported to the general assembly in favor of building a bridge at this point, and the time has come when there should be no barriers to travel between states and more particularly between sections of The present facilities for vehicle and foot travel across the river at this point are deplorably inade quate, there being only an antiquated ferry that runs intermittently from sunrise to sundown during the open-The receipts from this ferry running only a part of the year and notwithstanding its inadequacy and the fact that a large part of the traveling public purposely avoid amounted last year to \$5,326.90. bridge with a reasonable toil, which the traveling public would willingly pay, and which could be used at all seasons of the year and all hours of the day, it is conservatively estimated. would more than trable these receipts and provide a sufficient income to op-erate the bridge and pay interest charges on the investment, which it is estimated by the engineers who made the plans for the commission

would be about \$400,000. There is not a river in the shore territory from the New York state line to the Thames river, with the exception of the Connecticut river. that is not provided with an adequate bridge, and it should be noted that in the shore territory from New Haven to Rhode Island there is a population of over 200,000. It should also be noted that there is not a highway bridge to the Connecticut river nearer to this section than Middletown, which is 27

the commission has recommended.

ACCUMULATING DEFICITS.

The city of Lynn, Mass., is just they let health take care of itself. now furnishing an example of how New England cities are being politically run. The tax collectors have not done their duty for many years and the authorities have expended the tax money whether it was paid or not. The taxes have not been cleanly collected for over thirty years and the floating indebtedness is now dis-covered to be \$175,000. As a local saper states it: "At the close of each year, there remained the inevitable sum to be added to the deficit. Thus the evil flourished. With failure to sollect all the taxes, there has been the unvarying spending of every cent of the tax levy, in anticipation of its collection. Administration after administration has been content for year after year not only to tolerate this mischievous state of affairs, but in some instances mayors have also books, sought to turn it to personal advantage, by trying to make the fact appear that the tax rate was being kept

How natural this is. How quietly city indebtedness is increased out the consent or knowledge of the taxpayers in most New England cities. Lynn is not an exception but really represents the fashion which is there just now being called a "rot-

And the people who neglect to pay their taxes, to say nothing of those who play the part of deliberate cheats, what do they care about the burdens they place upon their fellow townsthem pay for taxes dodged. Success ful syasion seems to be no crime.

It is not surprising that Lynn is getting where it is thinking that government by commission is better and more desirable than the present system. Should it prove to be the pres-e t methods of city government will be on the wane. Less politics and better business policies are looking more and more inviting to all intelli-

THE PEOPLE'S WASTED MIL-LIONS.

The waste of public money through the naval channel is a living thems chinette." . and it certainly falls for reform. The naval department has come to be regarded as the department of greatest deficiency and greatest leakages. The New York Evening Post says upon this subject:

The navy department has long been the Conderella of the afficial family. Others secure and retain the services of able men. The navy, on the contrary, either never gets men of firstrate capacity, or, if it does got them, loves them in a brief time, During the past seven years it has bad six secretaries, and is about to have a seventh. How long the latter may stay in office is problematic. The precedents point to his more or less speedy change to another post in the govern-ment service. Yet at no time has the administration of the savy been so much the object of public criti-cism. An article in McClure's charges that the waste of public funds through the naval budget is some \$40,000,000 per annum. Granted that the writer is wrong by 75 per cent., there would yet remain a waste of ten million of dollars, through faulty distribution of tratle-

tion and their hitherto extravagant internal organization. Today, if ever, the navy stands in need of a firm and experienced hand in charge of its ar-fairs. Yet the present helmsman, who has shown himself particularly wise, experienced and courageous, h to be replaced by a gentleman whose chief recommendation, rumor hints, is that he must have a place in the cab-

inet, in order that the senior senator political presilge." The friends of Governor Lilley hope that this agitation will be kept up until the naval affairs are conducted right and he is fully vindicated.

WOULD HOLD UP POLITICAL

FREEDOM. men who seek public and are anxious to get and to hold them in all parts of the country are careless of tradition and history and the feelings of their constituents, and in their role of good fellows they are too ready to change the name of streets and parks as a means of popularity and preferment regardless of what is being lost by their conduct. This is especially true in Massa-chusette and New York. There is beore the Massachusetts legislature a Il to restrain the city fathers in hat state from abandoning old names of streets, parks and places, for new names. The reason for this bill the Salem News says is because of cercheap politicans to change honored names, in order that a common coun-climan or an alderman might be recgnized, in street or square or park omenciature or so cheap honor can conferred upon cheap men.

Recognizing the importance of this husetts measure the New York

In Boston and other Massachusetts cities, as in this town, there are pollforant of the historical meaning and value of old names of streets, sources arks and so on, are always trying to lange them to compliment or oblige somebody. A law for that protection of street names and against the bararism and ignorance of aldermen is "ded in this state."

The Bulletin feels thankful that unecticut aldermen and councilmen have not yet shown up in this political realm of ignorance, selfishness and barbarism, but to be forewarned is to be forearmed, and perhaps a law of this kind would be an approvable measure in every state of the union.

THE MODEL TENEMENT.

A feature of the model tenements which Mrs. Vanderbilt as to provide for tuberculosis sufferers in New York e the outside stairways. These eliminate which, with their dirt and darkness, most fertile breeding places for disease, Dr. Shively believes that such stairways will eventually come into ceneral use in New York. They have long been popular in southern coun-tries and he holds that the climate of ew York is really semi-tropical-Waterbury American.

What Dr. Shively pronounces a nodel tenement will be repudiated by the well to do class of tenants. What ie is there to an outside stafrway? hey may be healthy, so are bare floors and lower temperatures and simpler food, but with a surprisingly parce number of people health has to take second place to style, both in This is an all-state matter, as well dress and in house building and furnishing. There is no doubt that a tent is healthier than a wooden house, the healthcare and it would be for the business advantage and credit of the log cabin with its afry spaces the state to build a bridge there as louse, but there is no probability that race will ever go back to them.

EDITORIAL NOTES.

Happy thought for today: lown burnt-corked his eyebrows first but not for beauty.

The long municipal campaigns in western cities are now being referred to as "political marathons."

A man with two appendices has been discovered by the dectors. That balances the man with two hearts.

Some of the rankest democratic papers now pipe up and say that the country has lost a great president.

It is about time for the small boy's pocket to be full of marbles and his mind more on the game than on his

Miss Larned's Missionary Papers

Justus H. Vinton was born in Willington, Tolland county, in \$66, but in 1815 we find him a member and ilcentiate of the First Baptist church in Ashford, engaging in evangelistic work, we may infer, with Benjamin N. Skinner. And it was about the same date that his future wife, Calista Holman of Union, was favored with that remarkable religious experience, endowing her as it seemed with especial power from on high. Born in ence, endowing her as it seemed with especial power from on high. Born in 1807, when about fifteen she fell into what seemed a rapid decline and was thought to be near her end. Yielding herself whelly to the will of God, for life or death, she earnestly desired to become a member of this visible church and receive baptism in what she believed the divinely appointed method. In her weak condition it seemed a great imprudence to go seemed a great imprudence to go down into the water, but her recov-ery seemed so hopeless that her friends yielded assent and in chilly March she was carried to the adjacent brook and there baptized by Elder Grow, and received into the fellowship West Woodstock Baptist Elder Grow remarked in giving her the element:

"This is our sister's first commun-top and will probably be her last. We now receive her into the church militant: she will seen be in the church triumphant." But many years of faithful service were to intervene. Renewal of physical life came with the spiritual baptism—whether the shock quickened vital action whether the result might be attributed to "mind true". result might be attributed to "mind cure" or "faith cure" or direct answer to prayer, immediate improvement and subsequent recovery are abundantly substantiated. To consecrate this renewed life to the highest goal, became her supreme object. She taught school to gain means for pursuing her own education, alternating teaching with schooling. She acquired a much more thorough education than most women of that day, and decided to devote it to mission work in Burmah. Mr. Vinton meantime was workmah. Mr. Vinton meantime was working his way through school and col-ege and had also decided to enter the loge and had also decided to enter the Burnese mission. In the Hamilton theological and literary institute they found opportunity for studying the Karen language and thus were exceptionally fitted for the work before them. They were married in April. 1834, ordained and sent out to Maulman mission by the Baptist union, July 2, 1834.

Arriving at Maulman after four

July 3, 1834.

Arriving at Maulman, after four months' voyage, they were soon actively at work among the Karens, touring through the visiages and jungles, often separately, that they might reach a greater number. Schools and preaching services were instituted, and many of these tractable natives. ing services were instituted, and many of these tractable natives were brought into the fold. After fourteen years of most effective service, Mr. and Mrs. Vinton returned to America, bringing with them two small Karen boys, whose winning ways and sweet singing of gospel hymns found access to many hearts. Enthusiastic audiences in many churches greeted the returned missionaries, and interest in their work was greatly quickened.

Few missionaries have been privileged to witness such results of their labor in receiving and training converts in heathen lands, and inciting sympathy and co-operation at home.

thy and co-operation at home.
Dr. and Mrs. Vinton returned to
Burmah in 1850, and during the war What the people are looking for are with England gave most helpful aid to evidences of gentility and style, and the persecuted Karens, and were most they let health take care of itself. church and secular affairs after the return of peace. Mrs. Vinton established and carried on a large and very successful high school in the vicinity of Rangoon. Dr. Vinton died at his post in 1358, and Mrs. Vinton and her son, Brainard, continued in the field. A letter acknowledging a gift from the Ashford association enables us to receive from her own hand a vivid pleture of the outward life and inner purposes of this devoted Christian woman in her closing years, and it is a great shurch and secular affairs after the re-

in her closing years, and it is a great privilege to be able thus to make it more widely known and kept in mem-Mrs. Vinton's Letter.

Rangoon, April 2d, 1862. My Dear Bro. Walker: It gives me great pleasure and satisfaction to see that I am still remembered by the deat Ashford association. That association was formed the year that I was con-verted. The delegates—Dea. Corbin and Col. Crawford—stopped at our house on their way, and prayed for me, then under deep conviction. Never till my latest day shall I forget that sea-

Dr. Justus H. and Calista Holman Vinton.

Among those present at that memorable memorial service in Ashford in 1831 were two whose names became familiar in later years in connection with that eminently successful mission work among the Karsas of Burmah, Although not astives of Windham county, Dr. and Mrs. Vinton became early members of Baptist churches in Ashford and Woodstock, and were thus brought into fellowship with all the Baptist enurches of the county.

Justus H. Vinton was born in Willington, Tolland county, in 2806, but in 1815 we find him a member and licentiate of the First Baptist church in Ashford, engaging in evangelistic work, we may infer, with Benjamin N. Skinner. And it was about the same date that his future wife, Calista Holman of Union, was favored in the church in those of grace and I see and feel they have worked for my good. They have diven me from all fust in human aid, and caused me to look alone to God for help. And now He has permitted driven me from all frust in human aid, and caused me to look alone to God for help. And now He has permitted me to live to see my son return—to see him and his wife enter upon their missionary labors—to see the Karena gathering around them asking advice and counsel as they did 28 years ago of Mr. Vinton and me. Should I not be thankful? May I not look up and say, "Now lettest thy servant depart!" Although worn out and tired in the work. I am far from being tired of. I never enjoyed school teaching better than now. And my travels in the jungle for the past three months have done me the past three months have done me good in soul and body. It does me good to get out among the people-to visit the churches and endeavor to point sinners to the Lamb of God. have never complained of missiona have fiever complained of missionary work. I only wonder why God ever permitted me to enjoy such a privilege. You speak of my burdens, sacrifices and personal inconveniences. I know nothing of them compared to the luxury of doing good. And that luxury does not consist alone in pointing sinners to the Lamb of God. True that is the greatest. But to give a dose of medicine, to nurse the sick, to relieve the distressed, speak kindly to the afficted, instruct the ignorant, imparts as much comfort to the agent as to the object. If not, where is the truth of the words of our Saviour, "It is more blessed to give than to receive?"

I do not ask your sympathy. I ask your co-operation. Not that I am expecting long to occupy this field. No. I feel that my work is almost done. Twenty-eight years of hard labor and toll in this debilitating climate has told upon my constitution, and I wonder that I have held out so love. But may

upon my constitution, and I wonder that I have held out so long. But may I not ask you to be co-workers with my son and wife? Will you not continue to do for them what you have just done for me? I trust they will be hard working, faithful missionaries and as such working to your confidence. hard working, faithful missionaries and az such worthy of your confidence. Breinard preached his first sermon in Frank's chappi in Karen inst Sabbath. He had preached in Karen several times in the jungle. He has still traveling, though the weather is getting very hot. He regrets exceedingly that he cannot visit all the churches this year. But it is our motto to do all we can, and leave the rest with God.

And now, in conclusion, allow me, through you as the organ of the association, to thank them for what they have done, and ask that they may send me yearly such a letter as I have just now received. Yours, in Christian bonds,

CALISTA H. VINTON.

In hope of regaining health, MrsVinton made a parting visit to friends
in England and America and was enabled to make many addresses, not
only to her friends in New England
but in some of the western states and
Canada. The presence and words of
this white haired woman after so many
years of earnest labor made a deep
impression upon all who heard her,
rekindling interest in some whose
hearts had falled them. Returning to
her adopted home in \$663, she hoped
to resume her work, but strength falled her and she died at Rangoon in
December, 1863—leaving a record surpassed by few women missionaries,
Her work among, her much loved
Karene was carried on by her daughter, Calista, Mrs. Luther, and the son
mentioned in her letter. CALISTA H. VINTON.

mentioned in her letter.

Rev. J. Brainard Vinton was born in Burmah, educated mostly in this in Burmah, educated mostly in this country. While pursuing his studies he united with the West Woodstock Baptist church, so loved by his mother, and retained his membership many years. He was graduated from Hamilton Theological institute, married the daughter of another veteran missionary, Dr. J. M. Harwell, He with his wife and sister continued the work among the Karens until compelled by wife and sister continued the work among the Karens until compelled by ill health to return to this country.

Rev. L. R. Vinton, son of Rev. J. Brainard and — Harwell Vinton, was ordained in the First Baptist church, Charlestown, Mass., June, 1900, with special reference to engaging in missionary work in Burmah. Eleven missionaries have gone forth from the families of his connection. A sister of Dr. Justus H. Vinton, Mrs. Miranda Vinton Harris, sided him in his labors, 1841-1854. Descendants of these pioneers are carrying on mission work in neers are carrying on mission work in various fields.

Monarchial?

Monarchial?

Among the reviewers of the Roosevelt regime, which nearly all of the hustling March magazines contain, is Prof. Harry Thurston Peck's. He is thankful there is not to be a third term for, he observes:

"Had Mr. Roosevelt been elected again, instead of Mr. Taft, we should see, at the end of another four years something very like a regal court in Washington. Already there have been introduced forms and usages which were unknown before, but which are essentially monarchical. Many other changes have been effected of a social character which have not been publicly commented upon, but which in private conversation have been noted throughout the country."

Why was not Professor Peck more specific? He has aroused one's curiosity only to hide behind a curtain of "iscretion and reserve. Monarchical? In some ways, perhaps. Yet Jack Abernathy of Oklahoma, who catches

in/ some ways, perhaps. Yet Jack Abernathy of Oklahoma, who catches

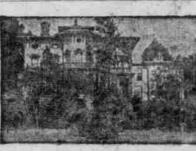

HAD QUIT WORK READY TO GIVE UP IN DESPAIR Restored to Health By Vinel

"I was sick, run-down and finally sicians, I was just about ready to give up in despair. I saw Vinol advertised and decided to try it, Positiney Bigelow has again shown and it has done more good for nat he does not know "when to open me than all other means combined. It nd when to shut," and in this re- has built me up and restored my strength until I now feel twenty years younger, and am able to attend to my work again as usual." Job Jeavons, 1036 Lind street, Wheeling, W. Va.

The reason Vinol is so successful in such cases is because it contains tonic tron and all of the strengthening blood-making and body-building elements of cod liver oil, but no oil, Vinol is unexcelled as a strength creator for old people, delicate children, weak, run-down persons, and after sickness and is the best known remedy for coughs, colds and bronchiffs. We return your money if Vinol fails
